

GLUEFIX PROTECTOR

Detaching solution for synthetic turf adhesives

Description

GLUEFIX PROTECTOR is a detaching solution based on water dispersed resins used in order to prevent staining on the work tools with synthetic turf adhesives. It is able to preserve the equipment over time commonly used for the application of adhesives: like the mixer, the trowel and the tank of the glue machine, etc. Used regularly, it ensures a longer durability of your tools and makes cleaning as fast and efficient as possible.

Characteristics

| | |
|-------------------------|---|
| Mixture ratio | single-component |
| Appearance | liquid |
| Application temperature | +10°C ÷ +25°C |
| Application | Brush |
| Coverage | minimum: 2/3 g to protect the trowel, 10/20 g to protect the glue machine |
| Storage stability | 1 year ⁽¹⁾ |
| Packaging | 1 L |
| Tool cleaning | Water |

1 in original sealed containers at temperatures between +10°C and +25°C

How to use

Apply GLUEFIX PROTECTOR by brush and wait 5-10 minutes. Proceed with the normal adhesive applications and, when finished, detach easily the hardened adhesive from the tools treated with GLUEFIX PROTECTOR.
