

DOC03 – ENERGY POLICY

To maintain competitiveness, consolidate the corporate image and promote environmental and economic sustainability, CHIMIVER PANSERI S.p.A. considers fundamental to rely on a strategy based on the improvement of energy performance. As a result of these aspects, the Company Management has decided to implement an Energy Management System highlighting its commitment to:

- strengthen the awareness of the Management and of all the collaborators regarding the importance of an efficient and correct use of energy resources;
- comply with its compliance obligations, consisting of legal requirements and other commitments undersigned in the energy field;
- promote the rational use of all energy sources, minimizing waste and the impact on consumption associated with its processes and products;
- incentivize the procurement of energy efficient products and services with a lower environmental impact, considering energy consumption as a key factor in the design of new processes and installations;
- seek continuous improvement of the energy management system and energy performance;
- prevent pollution and minimize the environmental impact;
- involve other interested parties such as suppliers, collaborators and customers, in order to make them supporting the achievement of common welfare objectives with their work;
- use adequate energy supplies at the most advantageous prices;
- establish goals in line with the commitments set forth herein in order to be able to measure the level of implementation;
- ensure the availability of information as well as human, economic and technological resources suitable for the achievements of set goals;
- constantly monitor energy performance in order to build indicators useful for projects and initiate effective corrective actions to deal with non conformities and deviations from goals;
- mitigate its own environmental impact and that of its suppliers by defining procedures and strategies to reduce climate impacts and undertaking initiatives aimed at environmental sustainability.

The contents of the Company Policy are communicated and shared internally with the people who operate under the control of our organization so that everyone, according to their own operations, contributes to implementing the fundamental principles in the common interest.

The document is available to stakeholders by publication on the company website and the System Manager is authorized to provide a copy to anyone who requests it.

The content of this Policy is subject to periodic re-evaluation to ensure that it continues to be representative of the will of Management and could guide the company development.
