

COVER PROTEGGI PAVIMENTI

Self-adhesive sheet designed for the temporary protection of various types of flooring

Description

Cover Proteggi Pavimenti is a self-adhesive sheet designed for the temporary protection of wooden, laminate, LVT, SPC, PVC, resin, ceramic, stone flooring and stairs during renovation, construction work and/or events. Cover Proteggi Pavimenti is a quick and easy-to-install solution, created to simplify on-site work and reduce installation time. It ensures maximum safety thanks to its non-slip surface, providing stability and protection during every operational phase. Shock-resistant and completely waterproof, it effectively protects surfaces from accidental damage and liquid infiltration. The breathable backing allows underlying moisture to evaporate, preventing condensation and preserving material integrity. It is also reusable, making it a practical and economical choice. Its narrow width makes it particularly suitable for stair coverage, ensuring protection even in tighter spaces.

Characteristics

Useful working time	Duration on site after installation: 3 months (max 40°C)
Thickness	2,5 mm +/- 10%
Specific weight	160 gr/m ²
Skid resistance	150N / A4
Water Vapor Permeability	70 gr / m ² / 24h
Winding	glue on the side to be laid
Inner Part	cardboard
Storage stability	1 year ⁽¹⁾

1 in original sealed containers at temperatures between +5°C and +30°C

How to use

Cover Proteggi Pavimenti is immediately usable on all types of flooring. For newly installed or renovated floors, it is necessary to wait for the complete drying of the applied product. The required waiting time varies depending on the chemical nature of the finish used. For varnished floors, wait 72 hours before applying Cover Proteggi Pavimenti, while for oiled or waxed floors, wait 7 days.

Label elements
