

DILUENTE DR 22

Retardant thinner for polyurethanic products

Description

DILUENTE DR 22 is a slow evaporation thinner recommended for polyurethanic single and two-component solvent based lacquers.

Characteristics

Appearance	colourless liquid
Specific weight	0,96 kg/L
Packaging	5-12,5-25 lt
Storage stability	1 year ⁽¹⁾

1 in original sealed containers at temperatures between +10°C and +25°C

How to use

DILUENTE DR 22 has to be added 5-10% to lacquers when weather conditions are difficult as high temperatures or in presence of big surfaces or low absorption woods.

If you add more than the indicated quantity, the final result of the varnished surface couldn't be what expected.

Label elements
