How to use

Shake well before use. STARTER has to be applied on wooden floors that have been filled, sanded and carefully vacuumed. It is possible after 2 hours from the first application (without sanding) or after 12/24 hours (prior sanding with 280/320 paper grit) to apply another coat of STARTER. The subsequent finishing, previous proper sanding, has to be done with STAR, STAR 2K, WOOD 2K or TRAFFIK 2K (see technical data sheets).

Notes: if finishing tannin wood species, it is suggested to run a preliminary test.
